EDUCATION

Texas A&M University   **2020 - 2024 *(Expected)***
B.A. in Computing   *College Station, Texas*
- GPA: 3.64; Dean's Honor Roll Fall 2021, Spring 2022
- Notable Courses: Data Structures and Algorithms, Discrete Structures, Computer Organization, Linear Algebra

WORK EXPERIENCE

Engineering at Texas A&M University   **August 2021 – Dec. 2021**
Engineering Peer Teacher   *College Station, TX*
- Responsible for instructing and co-leading around 90 first-year engineering students in Python and the fundamentals of coding.
- Fostered an efficient learning environment for my students and fellow peer-teachers.
- Assisted in students' academics in and outside of class, resulting in significant improvement of the class's average grade-point

TECHNICAL PROJECTS

HowdyHack Hackathon
- Co-ordinated and directed a team of 3 engineering-peers to develop an interactive-web interface that would prompt users with lyrics to the respective song of their choice.

"Pangu" Discord Bot
- Developed a bot capable of various functions on a popular chat platform called, Discord, to automate the day-to-day tasks a user would encounter.
- Built entirely on Python and Hikari.py with capability of integrating other apps or APIs.

Developer Portfolio Website
- A portfolio website built entirely on HTML, CSS, and JavaScript that helps showcasing my work, skills, and character in the work industry.

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, HTML/CSS, JavaScript, SQL
- **Tools:** Git, Docker, Visual Studio

LEADERSHIP EXPERIENCE

Secretary, Vietnamese Student Association   **May 2021 – May 2022**
- Curated a database containing 300 members' information and applications.
- Managed and optimized a family system, comprised of hundreds, that promoted activity within the organization.
